In This Issue

We conclude the year 2012 at the *Residents' Journal* with a variety of topics. Editor-in-Chief Monifa Seawell, M.D., begins with an editorial on this year's recipient of the *Residents' Journal* Editor's Choice award. Nicole Zuber, M.D., discusses the cultural and bicultural challenges involved in treating adolescent immigrants at risk for suicidal behaviors. Dylan P. Murray, M.D., presents a case report of acute alcohol withdrawal syndrome. Chris A. Karampahtsis, M.D., M.P.H., presents a case of a young woman with food-triggered panic attacks. Danijela Ivelja-Hill, M.D., Eileen Zhivago, M.D., and Maria del Pilar Trelles-Thorne, M.D., discuss the importance of early recognition of neuroleptic malignant syndrome, particularly in vulnerable populations. Iman Parhami, M.D., M.P.H., provides a clinical review of hypersexual disorder. Last, Jonathan R. Scarff, M.D., discusses bethanechol as treatment for antidepressant-associated sexual dysfunction.

Cover picture

Pictures, 2004 by Mati Garcia-Monzon (b. 1944)

Mati Garcia-Monzon was born in Spain and started painting during her childhood in Cadiz. Her CV includes national and international exhibitions, and also illustrations in books and magazines. In 2004 a relative of Mati had a stroke and since then she spends time caring for her. During the first year after the stroke, Mati drew a number of pictures related to this experience. They show a deconstructed reality where some elements are missing and others have changed their shape or size. Despite the abstracted forms there is strong sense of shared physicality. Is this the reality of life after stroke as seen through the eyes of a carer?

Dr Luis Ayerbe

We are always looking for interesting and visually appealing images for the cover of the *Journal* and would welcome suggestions or pictures, which should be sent to Dr Allan Beveridge, British Journal of Psychiatry, 17 Belgrave Square, London SW1X 8PG, UK or bjp@rcpsych.ac.uk.

The American Journal of PSYCHIATRY

Latest
IMPACT
FACTOR
12.539!

Official Journal of the
American Psychiatric Association

Edited by Robert Freedman, M.D.

- The *American Journal of Psychiatry* has an Impact Factor of 12.539 according to the recently released 2011 Journal Citation Reports® (Thomson Reuters, 2012), placing it 2nd among the 129 journals in psychiatry while still remaining the far-and-away leader in total citations.

- The *American Journal of Psychiatry* (AJP) is also the #2 journal in psychiatry in terms of immediacy according to Thomson Scientific's Immediacy Index. This important performance metric is calculated by dividing the number of citations to articles published in a given year by the number of articles published in that year.

- The Immediacy Index is a good measure of how quickly a given journal's articles are cited. AJP's #2 placement is a result of publishing articles that are relevant, covering current "hot" topics and cutting-edge research, and getting these findings to the field faster with AJP in Advance, the Journal's online-ahead-of-print publication protocol.

- A recent poll conducted by the BioMedical & Life Sciences Division of The Special Libraries Association identified the 100 most influential journals in all of Biology & Medicine over the last 100 years. *The American Journal of Psychiatry* was among those honored, the only psychiatry/psychology journal represented.

No other psychiatric journal reaches more psychiatrists with greater impact or immediacy than the one the overwhelming majority of psychiatrists considers essential: AJP.
