Correction

The March 2013 CME course on the article "Perinatal Choline Effects on Neonatal Pathophysiology Related to Later Schizophrenia Risk" by Randal G. Ross, M.D. et al. (*Am J Psychiatry* 2013; 170:290–298) displayed the incorrect wording for the third CME question. The course was taken down and replaced on April 1, 2013, with a course in which the correct question appeared for number 3.
