

Supplementary Table 3. Gene-wide association p-values between *SORL1* and hippocampal volume with and without adjustment for scanner protocol

	Without scanner protocols[*]	With scanner protocols
Discovery sample	0,04	0,0362
Replication sample	0,009	0,0115
Combined sample	0,002	0,0017

^{*} The covariate for field strength was used solely on the combined analyses
